**CYR & SMITH**  
LUNDBRECK      BLAIRMORE      BELLEVUE

A double fatality occurred at Bankhead recently, in which two Italian miners named Narciso Morello and Waleney Packney met death through a cave-in.

A German, who had fought in the Franco-German war, was arrested in Blairmore on Monday, and sentenced on a minor charge to some free board.

Come Along With Your Christmas Ad.

L. W. Kribs is Elected  
Mayor by Acclamation

The nominations in Blairmore on Monday occasioned very little interest, no one seeming desirous of acquiring municipal honors or positions on the school board. As a result only sufficient names were handed in to fill the vacant offices, and all were elected by acclamation.

L. W. Kribs was elected mayor for the next two years, succeeding H. E. Lyon, who has filled that position ever since the date of the town's incorporation.

M. Lagace, W. A. Bebe and W. J. Bartlett were elected to fill the vacancies left by Messrs. Hinds, Brisco and Bebe. L. H. Putnam, H. E. Lyon and W. J. Bartlett were elected to the office of school trustees, as successors to Messrs. Bebe, Ennis and Lyon.

#### Sitting of District Court

A sitting of the District Court was held in the Odd-fellows' Hall on Wednesday, presided over by Judge E. P. McNeill.

The legal fraternity was represented by Messrs. L. H. Putnam, J. E. Gillis and H. C. Moore.

Although quite a docket had been prepared, only a few cases came up for adjudication, the most important being in the case of Dr. De Martigny, of Frank, versus Mrs. Heintz, of that same city. This was a case where the "learned" doctor claimed the sum of \$55. for professional services rendered, or had rather appeared to be \$25 for certain professional services and interest at the rate of \$1.07 per month on the overdue account. The verdict was rendered in favor of the doctor.

The appeal in the case of Wheeler vs. Palmer was not allowed on account of insufficient notice having been given.

#### Small Debt Cases In District Court

The following is a list of the cases that were to be heard at Wednesday's sitting of the District Court in Blairmore:

Eshom vs. Hamilton, for \$20.00-L. H. Putnam and H. C. Moore.

Dawson & Green vs. W. W. Holstenholme, for \$6.15-L. H. Putnam and J. E. Gillis. Settled out of court.

Dawson & Green vs. West Canadian Collieries, for \$50.00-L. H. Putnam and H. C. Moore. Laid over till next sitting.

M. Brisco vs. S. W. Baker, for \$78.25-H. C. Moore and L. H. Putnam. Laid over till next sitting.

Dawson & Green vs. Whiller & Farmer, for \$133.44-L. H. Putnam and H. H. Roberts. Laid over for next sitting.

J. H. Davidson vs. B. Ozus, for \$81.00-L. H. Putnam and MacLeod & Gray. Adjudged.

M. Gronouze vs. G. Bello, for \$86.00-L. H. Putnam and J. S. Scringham. P. Burns & Co. vs. C. Decos, for \$25.00-J. E. Gillis and L. H. Putnam. Judgment for \$21.10.

J. Liedzansky vs. West Canadian Collieries, workmen's compensation—H. Ostlund.

A. L. de Martigny vs. E. Heintz, for \$55.00-L. H. Putnam and H. C. Moore.

#### C.P.R.'S Fourth Vessel on Clyde

The Metagama, sister ship to the Mississauga, was successfully launched Friday and christened by Lady Blie, wife of Sir John Harvard Blie, LL.D., designer for the Canadian Admiralty. In the yards of the Canadian Vessel Co. at Glasgow, when the Metagama was down the ways she created a record which bids fair to remain unbroken by any shipping company engaged in Canadian or American business. She is the fourth vessel launched by the Canadian Pacific on the Clyde this year. In the light of present conditions this is a glowing commentary on the substantial condition of her owners' exchequer.

The Metagama's sister ship, the Mississauga, reached Montreal recently on her second voyage out of Liverpool, and went back again Friday morning. They are of the "out-class" type, with passenger accommodation for 620 second, and 1,200 third class. Each has a length of 320 feet and a beam of 44 feet, while the depth of the hull is 14 feet. Each vessel has a dead weight capacity of 7,000 tons, with an aggregate cargo capacity of 6,000 tons. The famous cruiser stern which is also the feature of the new boats placed on the Pacific is introduced by these boats on the Atlantic. The new ships have six complete steel decks. In order to ensure safety the hulls are subdivided by water-tight doors and bulk-heads, so as to be capable of floating when three compartments are open to the sea. These water-tight bulkheads and doors are automatically controlled from the bridge. The speed of each vessel is 15½ knots with a draught of 27.5. As for the interior of the vessels, each cabin stateroom is fitted with a wardrobe and chest of drawers, cold-water laboratory, washroom, air-drying saloon, smoking room, bunks and drawing room. The domestic refrigerating plant is capable of making 300 lbs. of ice per eight hours. The vessels are heated and ventilated on the thermo-tank and Cristal system, changing air eight times each hour. There is also a printing plant on board each vessel. They are fitted with Murray's patent nested lifeboats as well as motor lifeboats. They are the first steamers to have Babcock and Wilcox patent which enable the boats to be launched from either side of the ship even when at a considerable list.

Frank Happenings

A ratepayers meeting was held on Monday for the nomination of councilmen for the coming year. The following gentlemen were elected: W. J. McGowan, Dr. de Martigny, Daniel Dunlop.

The new indoor rink was opened on Wednesday evening and was well patronized. The Goodwin band was in attendance and rendered good music. About 200 skaters occupied the ice, which was in excellent condition. Without a doubt, Frank now has the best skating rink in The Pass, and we look forward to an interesting and successful season.

T. Patterson and A. Tristam spent a couple of days in Bellevue this week, renewing old acquaintances.

Rev. Mr. Hart, of Hillcrest, will occupy the pulpit in the Methodist church on Sunday evening. Rev. Mr. Young will take the Hillcrest pulpit.

Germans Cannot Vote

Ottawa.—Returning officers and deputies in municipal elections throughout Canada will have a new duty to perform and it will probably be the first instance in the history of Canada when certain men whose names were on the voters' lists will not be allowed to cast their ballots. There are many residents of German, Austrian and Turkish nationality who are not naturalized Canadians and as such, under an order-in-council, they have no rights. While their names may appear on the municipal voters' lists as occupants of property, it will be the duty of the returning officers to prevent their voting should they make an effort to do so. To do this it will be necessary to swear all voters of foreign nationality whether they be naturalized or not.

#### A Song and Dance

The Sultan does a merrily dance,  
He's Johnny on the spot;  
He'll have to do some stepping  
When he does the Turkey Trot.

Judy lingers on the brink—  
She knows she has her faults,  
And while she hesitates she does

The Hesitation Waltz.

And Rhoda big and burly too,  
Is "hopping" mad I swear,  
She'll gaily prance and do the dance

They call the Grizzly Bear.

The Jap will tango with the rest

And blithely smoke his cig.

The Scotch and English will join in

And with the Irish jig.

A reckless band of light dragoons,  
Seated on lively prancers,  
Will form in line to do a shine—  
While going through the Lancers.

The Frenchmen and the "Scots who ha'"

Will blithely dance and sing;  
Those Highland boys won't be kirk'down,

They'll have their Highland Fling.

The Austrians will sail-sift soon,  
Some one will lose a crown;  
The Kaiser's joints are getting stiff,  
Just watch for the lass break down!

## IS THE KING OF GUNS

HUGE ORDNANCE THAT CARRIES DEATH AND DESTRUCTION

Leviathan Weapons That Can Discharge a Projectile Weighing a Ton, the Shell Travelling at a Speed of Twenty-three Miles Per Minute,

In modern warfare, the conquest or superior armament is largely a question of strength.

The attackers are able to mount great guns with even half a mile range, so that the defender, if he is to succeed, victory is practically assured.

The king of ordnance are continually increasing the size and only the wealthiest of military powers with vast interests at stake, can purchase such Leviathan weapons.

The cost of a single gun, with its fittings, runs into \$15,000, and on a single discharge would pay a continental regiment their wages for a month.

The fact that each gun is estimated to deplete that gun from \$300 to \$400 in value.

The possession of these might of millions, which are more howitzers, not rifled throughout like naval guns, is really confined to Great Britain, France, Italy, Russia.

It is positively staggering to the conception to even attempt to analyze the powers of such ordnance.

The barrel of the gun is reckoned by size of bore and weight of projectile, perhaps oddly enough, an Italian.

The diameter of its bore is 17 inches,

and when it is remembered that the 6-inch gun is capable of crashing a battleship in two, it is fully a foot of wrought iron through

a gun barrel with awe what this stupendous fellow with the 17-inch

will do to a battleship on land.

The actual weight of the gun itself is 140 tons, and its shell turns the scale at 2,600 lbs., in other words

the gun is twice as heavy as a gun

itself, with a weight of 13 cwt. hitting

through miles of space and having

injury intervened by some

heat and blood. But it beggars the

imagination. Almost needless to say,

such a gun could not be employed

in offense, but it could be used

on board a ship. As a matter of fact,

it is a naval gun.

Pondorous as it is, this "made-in-

England" Leviathan gun is surpassed in

two important respects by the 16.25

breach-loading gun used for the first

time in war on some ships in the Russo-Japan War.

The justly celebrated weapon

throws a projectile weighing two

hundred pounds, and the gun

but has a more powerful muzzle

velocity, and a penetrating power

superior by a couple of inches.

The gun is capable of a rate of dead

ly metal leaves the muzzle it is trav-

elling at the rate of over 23 miles per minute. It may be perhaps when we consider that the speed with

which we can appreciate why three

feet of solid wrought iron should be

blasted like a carbardine.

This is the same Leviathan gun

which some years ago, in a trial, sent

a missile right through 28 inches of

granite, and finished up its devastating

course by ploughing a way through 11 feet of concrete! The

cost of the gun was \$1,150, gun in-

self irrespective of mounting, cost-

ing \$7,500.

The 16.25 British gun is the heaviest piece of naval ordnance in the world, weighing as it does seven tons more than the Italian Leviathan, but

its penetrating power it takes only

second place.

The French possess the most ma-

jorulous gun for their weight of

ordnance. For example, the

Rueche 13-inch gun is easily the most

deadly weapon in the world, judged

by its destructive power.

Yet in weight it is less than half

that of any of the guns already men-

tioned, its power, and, indeed, "that

of all the French guns being en-

hanced by the enormous weight of

bore. In fact, the French possess "the

longest gun in the world." The

maximum velocity of these 13-inch

guns, whether 12 or 16 inch, is more

than 500 feet per second faster than

the quickest traveling British pro-

jectile. The maximum velocity of the

German gun, which, by the w.y.,

is propelled from an 11-inch gun,

the heaviest gun of Germany is a

12-inch, but it is not quite so fast.

The shorter bore it is vastly inferior in

penetration.

It is important, however, that a dead

fate can be managed in actual

warfare with these mighty guns, and

it is guns such as the 6-inch mount-

ing that are used in form, which, by

the very frequency of their use,

their relatively deadly penetration, make the heavy gun a terrible

destructive force to structure and life in the day of battle.

## German Navy's First Defeat

That the German navy received its first defeat from a handful of pirates is a fact that must have known to very few, but it is one of the most interesting events. In the spring of 1856 a Prussian merchantman was captured by Riff pirates, and, on command of the crew, the pirates' ships were dispatched to Morocco to punish the offenders. The castigation, however, proved far to order than to administer. So when the pirates, who had been constituted a "village of pirates," found considerable difficulty in getting near the coast, they made a landing at the port of Casablanca, and an attack made upon a Riff fort.

The result pored disastrous. The pirates, who had been less than an hour's fighting, were completely routed and sent flying back to their ships. This engagement was the first battle fought between the newly-constituted "Russian navy" and it was fought with such fury that eight years later, when Dantzig swept the same ships off the coast.

The text of the offensive and defensive alliance between Japan and Germany, which has now issued an ultimatum to Germany, is as follows:

Treaty of alliance between the United Kingdom and Japan.

Signed at London, July 3, 1911.

The government of Great Britain, having taken place the changes which have taken place in the relations of the two countries since the signature of the Anglo-German agreement of the twelfth of August, 1905, and believing that revision of such agreements relating to such subjects would contribute to greater stability and repose, have agreed upon the following stipulations to replace those contained in the same object as the said agreement, namely:

(a) The consolidation and maintenance of the general peace in the regions of Eastern Asia and India.

(b) The maintenance of the common interest of all powers in the region of China, and the defense of their respective interests.

The British Lion Has Wakened Up  
From the London papers arriving it is plain that the response to the call for volunteers was at first slow and uncertain. But yesterday Mr. Asquith announced that 200,000 had enlisted. In two days 50,000 men had volunteered. The British army evidently turns and the army of a million which Kitchener is understood to want is likely to be under training soon.

The secrecy of the war operations probably had something to do with the hesitation at first exhibited. To-day the British know what war is after a rail of mystery, it is not stirring.

"War is like a fog" is the favorite American saying, and in this European struggle is conducted. Also, there was probably a slowness to realize the gravity of the contest, the men not being fully informed.

Two quotations from a letter by William J. Locke, the novelist, in the Pall Mall Gazette, will give the best idea of the situation:

"It is time that a tremendous truth should be boldly stated. No patriotic man can remain silent at the inadequate response to Lord Kitchener's summons to Britain's manhood. The world will have to wait a long time before a call a million men had leaped forth on the instant, eager to defend their country in its hour of need. A million men have been called up, but now we have but a bare hundred thousand, a meagre hundred thousand."

"Fools still walk the streets who say that the war is unpopular with certain sections of the community. As a matter of fact, they who say that the house is on fire, the barking ratters are unpopular."

"I appeal to the press to drive home the fact that the British empire is on fire and that if they do not stir to quench it they will perish in darkness and degradation. This is the real rôle of the press."

Mr. Locke seemed to think that the hanging back was chiefly on the part of the German army, and not of the Kaiser's school of thought.

But there is equal indignation in the papers against the "thousands of men who have been sent to the front and on the cricket fields." The truth seems rather to lie in the historic lethargy of the British character, which will be well illustrated when a recruiting sergeant spoke to the point when he said: "Wait till we get in the eye and then we'll talk about it."

This is evidently the exact way John Bull acted. Once the setbacks in the Boer War and the entry of the British leases were published recruits flocked to the colors. At the present rate there will be little complaint of "shirkers" in the days to come.—New York Tribune.

**An Always Ready Pill.** To those of regular habits of mind, care is not, but the majority of men are not of regular habit. The worry and care of business prevent it and out-of-the-way places are common causes of indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is nothing better than Dr. Chase's Kidney Liver Pill. They are simple in their composition and can be taken by the most delicately constituted.

**Government to Pay Transportation**

Sir George Foster, minister of trade and commerce, said yesterday that the government will pay the cost of transportation of all small contributions of oats, etc., given by Canadian farmers to the Red Cross. This gift has been made more, particularly by the farmers of Ontario. The government has agreed to meet the bill, and the contributions appreciated by the imperial authorities.

**The Panama Canal**

"The political importance of the Panama Canal is beyond question," he said. "It is greater than its economic value; it was built not primarily as a trade route, just as an instrument of national defense." The United States could only arrange for adequate protection to both its Atlantic and Pacific coasts by means of two fleets upon the assumption that there would be a transfer of one fleet or the other will be a matter of but a few hours, whereas it formerly took many weeks.

**The Strassburg Prophecy**

The Prophecy of Strassburg is well known both in Germany and France. The year of 1813 which followed the battle of Waterloo is the date mentioned, but it is equally dread since it asserts that "the German empire will come to an end in its third generation and half from its foundation."

Now a generation and a half is forty years, we are therefore with but a few months of the fatal date, 1915. Moreover, the prophecy clearly declares that "the last but one complete chapter of the empire of Hohenzollern will take place between Hamm and Unna."

A French Hero's Death

Eighteen-year-old Corporal Lupin, who served in the regiment of Major Jeanne, wounded during the heroic defense of Lille, will henceforth hold a position of honor in the army because he accorded an individual. Corporal Lupin gave his life to his country. The Germans to whom he gave his life, held him in high esteem.

Dr. David Warnock, of Pincher Creek, federal member for Macleod, was in The Pass the early part of the week looking into the needs of the people of this part of his constituency. The Dr. was more than surprised at the extent of destitution prevailing and intends taking the matter up with the government immediately in the hope of relieving the situation to a certain extent.

Don't forget the grand concert to be given in the opera house on the night of Monday, the 21st, under the auspices of the Blairstown Musical Corps. The boys of the Corps are all live spirits and assured of the assistance of considerable of the leading vocal, instrumental and "comical" talent in The Pass. The programme is to be varied, one of the principal items being the dramatization of "The Wizard of Valley Forge," in six big acts. Most of the actors have never before appeared before a local audience, and there is no doubt, judging from current comment, but that their debut will be greeted with all kinds of encouragement and enthusiasm. The admission fee has been placed down to the lowest possible note—adults 50 cents, children 25 cents. Come out and help the boys and girls and thus give encouragement to the efforts of local talent. Doors open at 7.30; performance will begin at 8.30 p.m.

Gifford Drewry leaves this week for his home in Toronto.

About a foot of snow has fallen, again making good sleighing.

The telephone men have been busily putting in new phones east of town.

James Bennett brought a big load of hogs in town on Saturday, which he shipped west.

A dance was given in the Cowley hall on Friday by the married ladies of the North Park, in farewell to Mr. Grindall, who expects shortly to go to the front. Evidently Mr. C. is very much thought of, as this makes his second farewell.

Little Ruth Cleden is laid up with a lame knee received about a week ago.

While out sleigh-riding, one of the horses slipped and all the occupants of the sleigh got frightened and started to jump, and Ruth, in the act of jumping, hit her knee on a lump of hard ground. We hope she will soon recover and be able to lead to attend the Christmas tree and concert, for which the children are being trained.

Supper was served about midnight, and the party broke up in the small hours of the morning.

Christians will soon be here, and the stores are taking on a holiday appearance. And what are we going to do, buy our goods at home, or send to the city? This is a question that is always at the front, and the people of the stores are always advocating home buying, and it is right, of course. But, there are always two sides to the question, and while it is right that we should buy at home, isn't it right to expect that our local dealer should make the price reasonable enough to justify our local patronage?

It is most effective and is pleasant and safe to take. For sale at all druggists.

## Hillcrest Happenings

Mrs. J. Penn and Mrs. James Bradshaw leave Hillcrest this week for England, and their many friends combine to wish them a safe journey and a happy and prosperous future.

Three of the Belgian reservists in town, Nicholas, Private, Joseph, Private and Jules Bouly, left on Tuesday morning to report at the Belgian consulate, Calgary, prior to leaving for the front.

Mr. Frederick C. Long, for some time manager of the Hillcrest Co-operative Society, Ltd., and lately associated with the Credit Men's Association, left town on Sunday to return to the Old Country. Freddy's cargo in Hillcrest has been somewhat varied, but nevertheless his record shows this fair barge must be sweet and lasting.

A series of war pictures, representing incidents during the siege of Antwerp, were shown in the Union Hall on Saturday night. The hall was well filled, and if Mr. William Legg, the proprietor, were to make a profit of obtaining films of more educational value than those he usually presents we venture to predict that he would have no occasion to complain of poor patronage.

A meeting of the Hillcrest Conservative Association was held in the Masonic Hall on Monday night, for the purpose of appointing delegates to attend the Conservative conference held in Macleod on Tuesday. The meeting was originally announced to take place in the Mission Hall, but owing to some misunderstanding, it was held in the hall available, and in consequence the meeting was held in Masonic Hall. The meeting was poorly attended, and after Misses John Bradshaw and Frederick Macdonald had been delegated to represent Hillcrest at the Mission conference, the election of officials was proceeded with, Frederick Macdonald being appointed president, and Frank J. Smith, secretary.

Arrangements for the annual Christmas tree were well in hand, and the presents have arrived. It is the custom to give every child in the school and the cost of doing so is donated to public subscription. A sum amounting to about \$400.00 has been donated, and this amount is sufficient to provide a suitable gift for each child. The distribution of presents will take place on the evening of Thursday, December 24th, in the Union Hall, which will be litfully decorated for the occasion. It has also been arranged that the school children, under the able leadership of Miss Thomas, will give a performance. The parents and other relatives of the children who had charge of the Christmas Tree Fund are to be complimented on the efficient manner in which they have carried out their work.

CALIFORNIA WOMAN SERIOUSLY AL-

ARMED

A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of pain. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying, "Buy a bottle and it relieves my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber Saville, Cal. For sale by all dealers.
